New York City N.Y.

Dear Bill:

I just received your letter stating that Semler was willing to play a twilight doubleheader in Newark August 8th, but would not agree to play but the first one a league game. I do not understand why he would be hesitant about playing both of them league games. We were supposed to arrange two more games for ourselves this half so as to play a minimum number of five. One of them was played in Polo Grounds last Sunday, and this would make the fifth one. If you just wont play it alright, but it seems silly to me.

Gottlieb told me he could put us in Wilmington August 6th if you would arrange something else for Bushwicks. I hope you will be able to, as Wilmington will I am sure mean more to us financially, and too we have not looked very good in Bushwicks. Remember I agreed to give up Toledo so you could take Kansas City in there, because I knew it would mean more to you. I hope you will do the same for me in this case.

I hope your trip west is proving successful. The two games we played you were certainly close. I hope we have a nice crowd on the 8th. It will be our first time home for almost three weeks, and our first twilight doubleheader.

Please get in touch with Gottlieb about the 6th.

Very Truly Yours
